# HILMERSON SAFETY SERVICES, INC.

We're committed to providing exceptional health, safety and business consulting services.

Our mission is to provide you insight in policy and program development supporting a management philosophy that workplace injuries are unacceptable and to promote employees understanding in the importance of doing tasks safely and efficiently.

Our consultants are experienced professionals who specialize in heavy industrial construction, heavy highway, commercial construction, manufacturing, and oil & gas industries.

## EXCELLENCE IN SAFETY MANAGEMENT

Hilmerson Safety Services, Inc. is a world leader in Health, Safety, Environmental and Business Consulting Services. Founded in 2001, our goal is to lead our clients in developing a total "Culture of Safety" within their organization. Our HSE programs lead management and employees in a supportive, involved and dedicated journey toward workplace injury prevention.

Safety is a process, not a program. Hilmerson Safety Services, Inc. delivers more than a safety audit or inspection. We strive to create partnerships with our clients. We assist our clients with integrating safety as a value rather than a priority or procedure.

Hilmerson Safety Services, Inc. can assist you with developing your new "Culture of Safety" so you can protect your employees, as well as your overall bottom line.
